## Recipe Box

This Lovely Recipe Box has section dividers and could easily be adapted for many other uses.

For the box you will need:

- 1 Piece of 12x12 Card Stock (I have used Marina Mist)
  - 1 Piece of matching card measuring 6 x 5 inches
  - 1 Piece of DSP measuring 5.75 x 2.75 inches
  - 1 Piece of DSP measuring 5.75 x 4.75 inches
  - 2 Pieces of DSP measuring 3.75 x 2.75 inches
- The DSP I have used is Natural Composition Speciality Paper Adhesives and Score Board

For the Dividers you will need:

- As many dividers as required measuring 5.75 x 4 inches
- For each divider 1 piece of DSP measuring 5.5 x 3.75 inches
- Scraps of Card and Punches to make you Tabs
- I have used Polka Dot Parade DSP

### Instructions

You can watch a video of this box being constructed at

1. Cut a 6 x 12 inch strip from your 12x12 sheet of Marina Mist and score it at 3 inches and 7 inches
2. Cut a 5 x 12 inch strip from the remaining piece of Marina Mist and score it at 3 inches and 9 inches and then turn it and score half an inch in from each of the long sides
3. Cut notches where the score lines meet as shown in the picture on the right.
4. Decorate the outside of box by attaching the DSP. Add sticky strip to the smaller piece as shown.
5. Stick the two pieces of the box together as shown in the second picture using wet glue, making sure that the patterned paper is all facing the same side and secure with the sticky strip.
6. Fold up the sides of the box and secure them on the inside with the sticky strip. Your basic box construction is now complete.
7. To add some rigidity to your box add the last piece of DSP to the 6x5 inch piece of card and then stick the whole thing to the back surface of the box.
8. Make a decoration for the front of your box
9. To decorate the Dividers add a piece of DSP to one side. Punch out shapes to be the dividers. Mine are based on Scalloped circles and with punched butterflies on them. Attach these at intervals along the top of the divider cards

Have fun filling your recipe box!
